“

*This course is designed to help teachers take their leadership skills further. The Leadership for Middle Leaders Online Program helped me to build and develop my skills of effective communication, empathy, and the ability to effectively manage and guide a team to success. The course uses the latest research from people such as Steven Covey, Brené Brown and Patrick Lencioni and helps you to understand the foundations of effective leadership and how to use them within your school or leadership team. I highly recommend this course to anyone who would like to further grow and develop their leadership skills. It certainly helped me.*

- 2022 Participant, Evelyn, A/Ass Principal
